

Science Learning Journey

Year 2

Grouping objects from nature

Animal habitats

Comparing animal habitats

Animal estate agents: habitats

Create habitats for wildlife

Animal homes

Create your own microhabitat

Be an animal detective

Bird watch

Food chains in habitats

How do seeds grow?

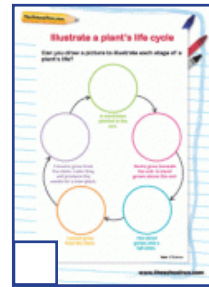

Observing plants in your environments

What plants need to grow

What plants need to grow (part 2)

Illustrate a plant's life cycle

Seed dispersal

Your own seed dispersal experiment

Build your own greenhouse

Using observation in investigations

Baby animals investigation

Science Learning Journey

Year 2 continued

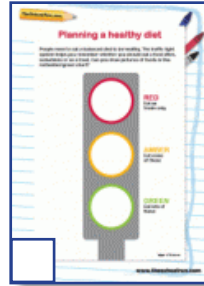

Healthy living pledges

What is good food?

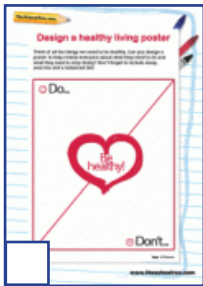

What's in our food?

Planning a healthy diet

Why do our bodies need exercise?

Design a healthy living poster

Healthy living bar chart

Healthy living pledges

Using medicines safely

Materials in your home

Kitchen materials

Manufacturing materials

Using different materials to make a home

Materials to build a house

Materials: would it work?

Materials linking game

Important inventions with materials

Are you a recycling superhero?

How green are you?

Year 2 super science quiz
