

Maths Learning Journey

Year 4

Place value practice

Read, order & compare 4-digit & 5-digit numbers

Rounding to the nearest 10

Rounding to the nearest 100

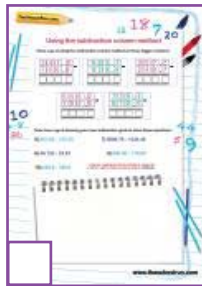

Rounding numbers to the nearest 1000

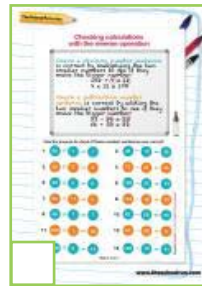

Reading Roman numerals

Understanding column addition

Using the subtraction column method

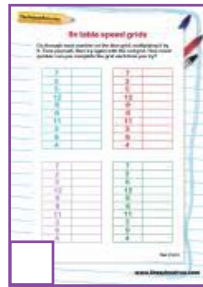

Checking calculations with the inverse

6x table practice drill

7x table speed grids

9x tables speed grids

11x table quick quiz

12x table number sentences

Finding factors

Multiplying with the partitioning method

Short multiplication explained

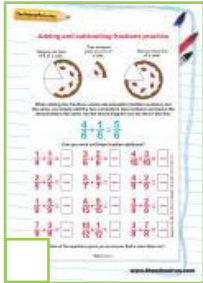

Solving two-step problems

Equivalent fractions practice

Fractions of quantities

Adding and subtracting fractions

Shading parts of whole

Multiplying and dividing by 10 and 100

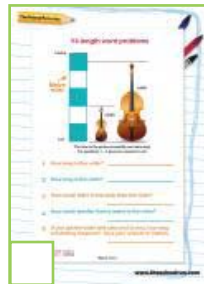

Ordering decimals: tenths & hundredths

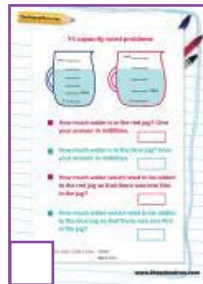

Cheaper offer investigation

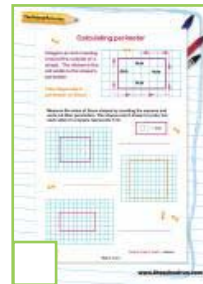

Y4 weight word problems

Y4 length word problems

Y4 capacity word problems

Calculating perimeter

Working out areas by counting squares

Reading the 24-hour clock

Converting between units of time

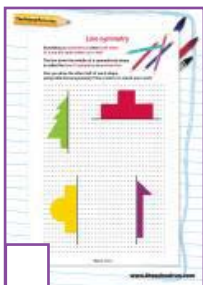

Classifying triangles

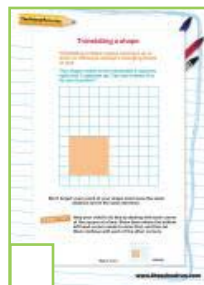

Classifying quadrilaterals

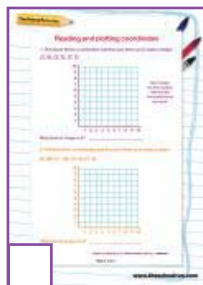

Comparing and ordering angles smaller than 180°

Line symmetry

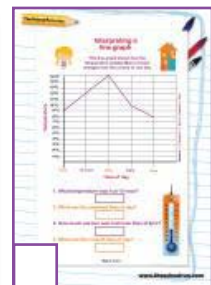

Translating a shape

Reading and plotting coordinates

Bar chart investigation

Interpreting a line graph
